BIG BEND.

Our news from Big Bend is up to the 26th ., making the journey at even this early n of the year, and before the steamer mmenced to run on the lakes, but nine to Victoria. In another month the disa will be traversed in little more than it the time. This is exceedingly gratifying, specially when we are assured the steamer Marten will commence to run on the Shus-

wap on the 15th instant-but a week from to-morrow. The Columbia steamer Forty-Nine has already made her first trip, and an arduous one it was, occupying ten days from Colville to Death Rapids. The ice in many parts of the river was so thick that the steamer became jammed on several occasions for nearly a whole day. When she got extricated her progress was exceedingly slow, and Yankee ingenuity was taxed to the utmost to bring her up to Death Rapids. The trip was, besides, merely a trial one-the steamer carrying no freight and therefore drawing but very little water. Every facility was consequently afforded her, and the tediousness and difficulties of the journey only show how much inferior is even the steam. boat part of the American line of travel to our own. It is now quite evident that the British Columbian route, to say nothing of its cheapness and its shortness, is a month shead of its southern rival. The fact will be but little use to us this year, but when the reputation of the mines shall have been fully established it will bear its fruit. In the meantime we can only hope, with our New West minster contemporary, that the Forty-Nine may prove a success. We shall be indebted to it largely the present year for the transportation of miners from the adjoining American territories to the diggings at Big Bend; and as things stand at present it would seem that the great bulk of our mining population will have to come that way. Labouchere misfortune, and the raising of the passage money on the steamers plying beween this and California, have thrown for a time a damper on our prospects of having a large travel via Victoria and the Fraserhave in fact injured the growing reputation of the British Columbia mines. season rolls on, however, we shall witness, from the very nature of things, a reaction set in against the overdone rush to Montana and the news from Big Bend, if it only corroborates a fraction of what has been said about the country, will fasten on the duped Blackfoot miner and lead him to the British Possessions. We have no hesitation in predicting that before July shall have expired thousands will be rushing from overcrowded Montana to any place for the time being that will offer a prospect of success. Without the Forty-Nine, however, they would have small chance of reaching Big Bend, and while British Columbia would be lost to them their enterprise and industry would be lost us. Colville, from which place or vicinity the Columbia steamer starts, is but little farther from the Montana mines than from Portland. From Idaho the distance is even less. It will, therefore, be seen how much we may be indebted, before the season expires, to the little steamer which has just threaded its way through the ice and pushed up the dangerous riffles of the Upper Columbia river. It may be regretted that the first trip was made use of by the American garrison at Colville to desert their posts for the mines; but the circumstance shows how intense must have been the feeling of confidence around Colville in the new diggings, when a number of soldiers were induced to run away with their country's weapons in their hands to try their fortune in the mines. Among the many gratifying assurances in the news from Big Bend is the fact that no dread of a scarcity of provisions is felt. It is rather amusing, however to hear that some parties at Seymour are annoyed at the circumstance, and that the press is very much censured for encouraging men to take up their own provisions. A few minutes' consideration will convince any reasonable being of the fact that had those parties who have gone up taken no supplies with them the demand at Seymonr would have been so great as to have raised the price of articles from 40 to 60 per cent. higher than they are at present. Had the numbers arrived from California which were calculated upon there would by this time, unless the miners had taken up their own provisions, have been nothing less than a famine. As it is, a large number of the men who left Victoria packed their supplies with them-some may have found that when they got to Seymour prices were ruling at a lower figure than it had cost them to bring up their own provisions, but this as we have said was incidental to the fact that by the miners becoming their own packers the de-

VICTORIA

great essential at the mines.

CLEARED.

May 6-None.

SENIOUS ACCIDENT TO MR. F. V. LEE. A telegram received by the Columbian dated Soda Creek, May 4th, says: Mr. F. V. Lee. a well known and highly respected Caribooite, who for some years past has been acting as collector of accounts and general agent on Williams Creek, met with a sad accident yesterday, but a short distance below Felker's, at the 127-mile post. Mr. Lee was a passenger on the up stage, and wishing to ride a horse which was being brought to ride a horse which was being broght to Felker's, left the stage, taking the horse about four or five miles below, the stage pro-ceding him. On the arrival of the stage at Folker's and after waiting some time, doubts were entertained as to Mr. Lee's well-being; a messenger was immediately dispatched, who, when but half a mile or so from the beaute found to his superise, the unfortunate who, when but han a lime of some house, found, to his surprise, the unfortunate man lying helpless on the road with his leg fractured between the ankle and knee, causing him great pain. He was by his comrades immediately conveyed to the 127-mile house where he is now awaiting medical aid On the arrival of the stage at this station, Dr. Trevor of Quesnelle, was forthwith telegraphed, but from great press of business could not attend. On arrival at Soda Creek, Mr. R. H. Young at once returned, passing here at 1:30 a.m. to see, procure, and render any assistance available for the relief of the sufferer. The horse is said to have been quite gentle, but from some cause in descarding a little grade stumbled and fell with house, found, to his surprise, the unfortunate sufferer. The horse is said to have been quite gentle, but from some cause in descending a little grade stumbled and fell with Mr. Loo's leg under him. In the absence of medical advice we have been unable to learn the nature of the fracture, but presume it is somewhat severe.

NORTH PACIFIC ANTHRACITE COAL CO .-The Chairman of the Board of Directors of this Company has received a letter from Mr. Ed. Stephens, Civil Engineer, dated Skidegate Bay the 15th ult., giving a highly engate Bay the 15th uit, giving a highly en-couraging report of the progress and pres-pects of the Company. Some of the workmen are mining into the hill close to the edge of a fine harbor on a seam, meas-uring from five to ten feet of good looking coal; the quality improving the farther they get in. The opening of the mine and the necessary tramways, wharfs, etc., the engineer reports will cost comparatively little. The reports will cost comparatively little. The distance from the wharf to the mouth of the mine will not be over 1000 feet. The lead appears to be the same as the Queen Char-lotte Co. are working on, there being room between them for another claim. Mr. Stephens congratulates the Company on the possession of what he considers "a very yaluable property."

LILLOOET .- From a Lillooet letter we learn that twelve residents of that town had jumped the claims of Chinese miners on Bridge River, who had not taken out licenses. They are running two sets of sluices, six mer each, and are taking out good pay. Lillooet is represented as almost descrited, everylooet is represented as almost deserted, every-body who could get away having gone to the diggings. Mr. Dewdney had completed the trail, and was discharging the men. It ap-pears only one-half of the amount appropri-ated has been expended, and the people of Lillooet have petitioned the Government to have the balance expended in carrying the trail further into the mining region, and otherwise improving the same—a request otherwise improving the same—a request which will, we presume, be promptly granted.

THE COLVILLE RAID .- We have no definite information as to the number of the American soldiers reported to have deserted from Colville and arrived at the Big Bend mines but serious fears are entertained as to the result of a considerable body of armed men result of a considerable body of armed men making so sudden a descent upon the diggings. It is more than probable that the 'jumping' alluded to in our dispatch has some connection with these new-comers, and we understand information has been received by the Government which has caused considerable uneasiness. Captain Layton, who brought the news to Lytton, is said to be the bearer of important official despatches relative to the offair. Some area disposed to construe the Some are disposed to construct dvent of these men into a Fenian Raid!!-

ATTEMPTED SUICIDE.-We learn that a colored man of the name of Steel, who kept a restaurant on Williams Creek, attempted to jump from the steamer as she was passing between the Sisters, on the way to Yale, but was prevented by passengers. While the was prevented by passeugers. While the Reliance lay at Yale on Thursday he jumped from her deck into the river. A line was promptly extended to him, but he refused to avail himself of succour; two men put out in a boat and succeeded in seizing the unhappy man as he made his appearance upon the surface for the third time, and brought him on shore, where he received proper attention.

REPORTED BIG STRIKE .- We are informed that a letter has been received in town stating that a strike of seven ounces to the pan had been made at Big Bend.

FELL & Co .- Are prepared to supply miners and travelers with every description of groceries and provisions put up in convenient sized packages for transmission to any part of this or the sister Colony, at the lowest Free Part wises. Free Port prices. Particular attention is paid to the selection of goods for the Big Bend and Bridge River markets, and tion is paid to the selection of goods for the Big Bend and Bridge River markets, and parties desiring to procure supplies for those mines may rely upon getting a superior article at our store. Coffee reasted and prepared on an improved prioriple; and Spices. guaranteed free from adulteration, may be had in any desired quantity. Fell & Co, Coffee and Spice Merchants and Family Grocers, Yates street, Victoria, V. I. *

NEW WESTMINSTER .- Miners and others going to Big Bend or Bridge River will find Hicks' Hotel (which is now kept by W. E Stein, formerly of the Hot Springs,) one of the best and cleanest houses in the city.—
Meals and Beds at 50 cents each, and Drinks 12½ cents. **3m

THE BRITISH COLONIST By Glectric Telegraph.

SPECIAL TO THE BRITISH COLONIST. EASTERN NEWS

WASHINGTON, May 1-It is understood that

Washington, May 1—It is understood that in a Cabinet meeting the President invited in an expression of opinion from his constitutional advisers respecting the plan reported to Congress by the reconstruction committee. An interesting and animated discussion ensued. Seward declared himself in very decided and emphatic torms against the plan of the Committee and in favor of the immediate admission of loyal representatives from lately rebellious States. McCulloch also trappose in opposition to the plan and expressed himself strongly in favor of the immediate Adoption of the President's restoration policy. Stanton was equally decided in his opposition to the Committee's report. Welles was unequivocally against the scheme and earn. unequivocally against the scheme and earnest in his support of the President. Harlan expressed no opinion. Postmaster General Dennison was in favor of the President's Dennison was in favor of the President's policy but expressed doubts as to the precise terms at which loys! representatives from the South should be admitted to seats in Congress. Attorney General Speed was not present. The President was earnest in his opposition to the report of the Committee and expressed himself against all conditions precedent to the admission of loyal representatives from Southern States such as amendments to the Constitution or Congressional logislation. He remarked in general terms that if the organic law be changed at all it should be done at a time when all the States shall participate in it as one nation. States shall participate in it as one nation.

New York, May 2—The Post's special says it is known that a report of the Cabinet meeting yesterday was furnished by prominent members of the Cabinet.

John Ross, stock speculator in Exchange

John Ross, stock speculator in Exchange Place, has been arrested for forgery. He had purchased \$50,000 in gold from Black & Spaulding, and \$50,000 from J. Cronin, paying them in forged certificates. He is said also to have forged the name of A Speer on two checks on the Union Bank for \$60,000 each and perpetrated other forgeries for amounts not stated.

Howard of Mich., on Pacific Railroad Committee, reported a joint resolution extending the time. for completing the first 100 miles east division to the 27th June, 1866. Passed. The House passed the Niagara ship canal bill, loaning Government credit to that enterprise to the amount of not exceeding \$6,000,000. Washington, May 4-The Committee ap

Washington, May 4—The Committee appointed by the Texas Convention have arrived and laid before the President an official copy of the new constitution and an ordinance declaring secession null and void, repudiating the rebel debt, giving Freedmen the right to testify, etc. Judge Hancock addressed the House saying that a wise and patriotic course in behalf of equal rights throughout all sections of the country has nerved fresh hope in many desponding hearts. That the same generation which experienced the last terrible shock of civil war will see the constitution ably restored. The President expressed himself gratified to learn the unanimous feeling of the people of Texas and accepted the result of the war, and said he had put the greatest confidence in the ultimate success of his administration of affairs.

The War in Chile.

Washington, May 2—A dispatch from Commodore Rodgers to the Navy Department dated Valparaiso, 31st March, says that "on my arrival with my squadron, I called upon the English Admiral who informed me that he intended to prevent any sudden bombardment, and would only suffer it after ample moice. To this I made no reply; but having considered matters I sought occasion next day to say that I would join him in the prevention of any sudden bombardment, and would also go much further if he chose. I passured him the Monadnock could take care of the Numanica, and I was absolutely certain that in not more than ten minutes the Monadnock, entirely unassisted, would leave only the mastheads of the Numanica above water, and that wooden vessels. Buglish and American, could look out for Spanish wooden vessels. The British Admiral said at first the could [only go with me; for I plainly declared I would not take any step without him I said I had no intention of becoming clared I would not take any step without him. I said I had no intention of becoming a cat's paw to draw European chestnuts out of the fire and then have the powers I served of the arc, and then introduced between 1 served laughing at my singed claws while they en-joyed the fruits of my temerity. I finally determined to throw the responsibility upon the English Admiral, who did not choose to determined to throw the responsibility upon the English Admiral, who did not choose to act in the premises. The co-operation of the English Admiral having failed; I called upon him and said I did not choose to drift into collision where I had no purpose to collide, and that I should move my vessels out of the Spanish way. This intention I communicated verbally to the Spanish Admiral."

Mexico. NEW YORK, May 3-The Herald's City of NEW YORK, BIAY 3—The Herald's City of Moxico correspondence of 18th April says: The siege of Mazatlan still continues with occasional skirmishes. The Liberal commander, Mendez, found by the French while sick, and refusing to surrender was shot in his bed.

SECOND DAY.

SECOND DAY.

His Honor took his seat at 10 a.m.

Chaptain Mouat informed the Outt that he was unable to find his pilot certifiance. It has been a man of us left to tell the tale.

Late wheel between 6 and 8, p. m, the evening we left San Francisco, and saw the same and ous left to tell the tale.

Late wheel between 6 and 8, p. m, the evening we left San Francisco, and saw the same and ous left to tell the tale.

Late wheel between 6 and 8, p. m, the evening we left San Francisco, and saw the same and ous left to tell the tale.

Late wheel between 6 and 8, p. m, the evening we left San Francisco, and saw the same of the learned the was unable to find his pilot certifiance.

Illis Honor asked witness for further party to the compass; I think it was between 7 and the Labouchere; took the wheel from the boat of the country of the same franciscopies of the country of the same franciscopies of the country of the compassion of the boat of the country of the compassion of the country of t

there is a statement made by captain Waterman that he examined all the crew; nly four or five of the crew were examined him at San Francisco : I was not one.

compasses in the pilot house, in front of the wheel; I steered by the starboard one; don't believe there was any difference between them; I kept the vessel on that course until about 20 minutes or a quarter to 8; when I altered her course, by the captain's orders, to W. S. W; I kept her on that course till 5 minutes to 8; when I was relieved by Blohm, and I told him to steer W. S. W; I saw that he did so: I went below to sup-I saw that he did so; I went below to supper and then to bed; remained there till she struck the rocks : I went on deck, looked over starboard side; she was then going

over starboard side; she was then going astern; could see rocks or breakers on starboard bow, but did not know where we were; I know the coast when I see it, but I could only see the loom of the land; went down to the engine room to see what water sho was making but found none.

Witnesses then described the rigging of the pumps as before stated.

About half an hore after she struck Capt, Monal sent m. 'a ble land. I have the lead. ing at 60c; bacon, \$150; sugar, \$125.

Two or three companies have just started working in the mines. The trail across the divide is not as bad as reported. The Columbia steamer Forty-nine arrived at Death Kapids on the 26th with 85 passengers. She left the next day for Colville, and will be back in ten days. She will run well when the water shall have risen. She was ten days in making her up trip, having been greatly retarded by the ice. On account of the trip being a trial trip she brought very little freight. A great many men are going up the river in boats loaded with provisions. Mr. Todd met about ten boats between Wilson and Kerbyville, averaging about ten men in each; one boat had, however, as large a number as 35. From 30 to 35 boats have gone up already.

M'CULLOCH CREEK.

With the pumps as before stated.

About half an how after sle estruck Capt. Mount sent r. to the lead. I hove the lead is the lead I believe over 40 times during a believe obsut 6 knots; it was still foggy with a flash light on our port quarter and about 10 or 15 minutes after saw another light on port own in boats loaded with provisions. Mr. Todd met about ten boats between Wilson and Kerbyville, averaging about ten men in each; one boat had, however, as large a number as 35. From 30 to 35 boats have gone up already. being a trial trip she brought very little freight. A great many men are going up the river in boats loaded with provisions. Mr. Todd met about 100 yards off but did not speak her yas headed with provisions. Mr. Todd met about ten men in each; noe boat had, however, as large a number as 35. From 30 to 35 beats have gone up already. Mr. Chambers, who left on the 26th, I hear that 200 men were on this creek, prospecting with good hopes of success. The Discovery claim have just commenced operations. The weather was fine.

I intend to start to-motrow morning in the Delambric Co., with no provisiony, no tools, but what men can bring on their backs. The senow is still very deep.

In haste, very respectfully yours, B. D.

Additional.

[PYTHLEGRAPH TO THE COLUMBIAN.]

LYTON, May 2—Cnptain Layton arrived from Seymour last evening. Ho took four the successing from was drowning, pulled the boat four the successing from was drowning, pulled the boat for 14 yards astern; from event of the succession of the succession

The Mexican residents of this city did not fire a salute yesterday in honor of the anniverately of the victory over the French at Puebla. All the soldiers deserted from Colville, taking with them their arms, and had arrived to their struggling compatriots to be expended with balls before it in front of the invaders of their country.

The May festivities of the German populations were inaugurated in this city last eventage. Commissioner O'Reilly had to may allow as the last to leave the ship. Five minutes tains. Commissioner O'Reilly had to may allow as the last to leave the ship. Five minutes was the last to leave the ship. Five minutes after we left she went down; the American steamer Orizaba came up after she sunk, and

steamer Orizaba came up after she sunk, and Captain Mouatt spoke her; we went ashore, landed the passenger's things and hauled the boats up and the captain left. On the following morning a steamer came to Drako's Bay and took us all back to San Francisco.

By the Court.—I was not sure it was Reyes Point when I saw the high land; I signed the protest; I don't remember that part being read over which says that the ship's course was S. W. by S., instead of W. S. W; the latter was the course I steered; Pettie, the carpenter, saw me steer that course; I was asked what course I was steering, and told them in the Concul's office; I am certain.

ould not bave taken more in my boat, as it was full; we had only left the ship about 5 minutes when sho sank. I signed no paper for the mails; I never received any orders from Captain Monat about the mails; they were not in my charge, but in Warren's. Saw the bark Glimpse, I think about 2 a.m. she was at anchor the first time I saw her; she was on the starboard bow alterwards; she was not anchored in Drake's Bay, ast should have seen her, she arrived in San Francisco before we did; the Captain of her remarked in San Francisco that he did not know what we were doing, sailing roundhim. When I saw the Glimpse 'the pumps were gaining on the water.

I never had any doubt in my own mind as to where she was from the time she first struck; the high land and the distance we had gone told where we were; besides, I alterwards saw the Faralone light. I was not allowed to say anything to the captain as to where we were; 1 did try to make remarks to the captain, but was only snappel at. Did not learn anything from the captain of the Glimpse.

Witness—From the outside I suppose (Laughter, in which the witness and Bench ing water fast; went on deck and reported to the captain that water was coming in very fast, and heard him order the carpenters to sony low of the cerew were examined by him at San Francisco; I was not one, and from what I can ascertain, the protest was only read, and one single question asked. I never received any message to come. I never expressed any opinion about the captain not having handled his sbip in a masterly manner. I hesitated about signing the protest, and the captain said if you don't believe it is true, don't sign it. I thought and still think that he did his best to save the ship, but whether he errod in to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not to put the pumps in order; they were not the water is to put the pumps dear; he captain to put the pumps dear; he captain to put the pumps dear; he captain to put the pumps dear the pump News from Big Bend,

with others. The Captain ordered me and several others to go in the fishing smack to San Francisco. We had 2 packages of Wells Fargo Express, and 2 or 3 other packages of the boat. We went to the agents and they sent a steamer. Don't know anything about the courses stated in the protest, and said so.

David Stephens—sworn. Was 2nd engineer on board Labouchere, saw nothing of the courses steered; I agree in the statement made by the Chief Eagineer.

David Ross—sworn. Was 3rd engineer, saw two small boxes marked M, two small bags of Wells Fargo, and two snips chronometers taken out of the ship; the boxes I believe contained jewelry. I know nothing of the chief Eagineer.

John Härry Scott—sworn. I was chief steward—I was in the cabin when the vessel struck. I know nothing of the course steered. Saw the mail bags come on board; the construction of the ship's course.

of the ship's course.

John Hönry Scott—sworn. I was chief steward—I was in the cabin when the vessel struck. I know nothing of the course steered. Saw the mail bags come on board; I don't know how many; I don't know who took charge of them; I saw them put in the saloon, some of the men assisted in putting them a was

ned as to mail bags, but could add nothing James H. Allen—sworn. Was 1st cook. When the mail bags came on board, I was sitting in the galley; all I did to assist was to take up the carpet of the lazarette. Thomas Cameron, Fireman—sworn. Added nothing material.

Robt, H. Adams—sworn. I was a passen ger on board the Labouchere; I know nothing about the other statements; I was pre

THE STRANGE MARTEN-According to the latest information received this steamer would be ready for launching on Friday last, and was expected to be in running order in about THE STEAMER CALIFORNIA left San Fran cisco for this port on Saturday at 5 p.m.

were passed up to me. We left off because all the bags we found were newspapers; I left off when no more bags were passed up to me. I heard the Captain say to Mr. Chambers when he got into the boat "for shame Mr. Chambers." I had permission from the Captain to go in the fishing smack, back to San Francisco, and see his boys afe on shore.

David Edgar—sworn. I was a cabin

passenger. I am an American; I saw Mr. Warren receive the mail bags in San Fran-cisco; I saw them afterwards on board the boats up and the captain left. On the following morning a steamer came to Drako's Bay and took us all back to San Francisco.

By the Court.—I was not sure it was Reyes Point when I saw the high land; I signed the protest; I don't remember that part being read over which says that the ship's course was S. W. by S., instead of W. S. W; the latter was the course I steered; Petrie, the carpenter, saw me steer that course; I was asked what course I was the course if was asked what course I was fiscering, and told them in the Consul's office; I am certain.

David Petre—sworn.—Was carpenter on the Labouchere; know Quinn; saw him at the wheel between 6 and 8, p. m., the even

during the passage; this act I consider is what a good, careful painstaking master ought to do. I had only the fore trysail set, the main I did not bend as I was alraid that the sparks

did not bend as I was afraid that the sparks from the funnel might set it on fire; the fore staysail was ready but not bent; we did not save more of the mail bags as there were no means of taking them away; I could not find any of the letter bags; I did not observe any bag marked "Admiralty mail bag"; I did not give Warren authority to act independently of the mate, as he was only a freight clerk under the mate's orders; when the consul sent the mail down to the ship I left a memorandum desiring that the last

the consulsent the mail down to the ship I left a memorandum desiring that the last southern mail should be kept on top in order that I might get at them conveniently without turning all the bags over, as it was my duty to sort them during the voyage; I did not run the ship ashore because the engine pumps alone kept the water sinking; mmm-diately after turning the vessel to evade the pilot boat the leak increased suddenly; the vessel was going shead with full power; I then put all hands to pump and unbattened the lower fore hatch, and set six buckets going bailing, the vessel heading directly for

ended taking his wife back this trip; he

said no; because, I said, we shall part when we arrive at Victoria; Chambers said

why? I said, because we don't get on to-

why? I said, because we don't get on together; "this, sir does not look like any ill feeling on my part."

Mr. Chambers rose and said: My Lord, Captain Mouat has made several accusations against me, and I wish to be allowed to confute them, as I deny them all in toto.

His Honor said that he could not allow and issues on a said that he could not allow.

any discussions or arguments, as this was no

any discussions or arguments, as this was not a trial of any criminal charge, and that he would adjourn the Court until Thursday, when the coming Assizes would be over, and other parties wishing to give testimony would have an opportunity of coming forward.

THE "49."-It is gratifying to learn from

our correspondent's letter that this steamer has opened the Columbia traffic to Big Bend

having on the 26th ult. landed her first in

stalment of 85 men at the Dalles des Mort

The first being more of a trial trip than any

hing else the steamer did not bring a large

number of passengers or much freight; on

ner next trip however she will no doubt be

A NEW VIEW OF THE SUBJECT.

Some years ago it was proposed by an Amorican physician that members of the Faculty should advertise their remedies and modes of treating diseases in the newspapers. It was a bold and manly Idea. It was sconted, however, by the profession generally, as infra dig. But is there any degration in publicity? Is it not rather the great touchstone that vies pretensions and universalises the practical benefits of all valuable inventions and discoveries? Should not a profession that aims at the mitigation of suffering and the preservation of life make the means of attaining these grand objects known through the channel of information most accessible to all classes and conditions—the columns of the public press? If it declins accessible to all classes and conditions—the columns of the public press! If it declins as to do so, the natural inference is, either that the desire of secrecy arises from a sordid, monopolising, energetic spirit, or from a lack of faith in its own pressurptions.

Viewing the subject in this light, we may presume, Professor Hollowar some twenty years ago overleaped the barriers which the profession had creeted between itself and the public, and plunged fearlessly into the newspaper arena. He had discovered, or rather invented, after years of research and experiments, two preparations which he believed invented, after years of research and experi-ments, two preparations which he believed to be specifies for nearly all the diseases of mankind; and as an indication of his con-fidence in them, and a proof of his philan-thropic wish that, if really valuable, they should be accessible to the whole world-she advertised them wherever advertising media existed. This was the severest ordeal to which he could have submitted them—the experimentum crues. He throw them at which he could have submitted them—the experimentum crucis. He threw them at once, as it were, before the sick of all regions. He stated their properties, proclaimed what they would do, and staked reputation and fortune upon the issue. That issue has been all that he or the world eculd have desired. The rich and the poor the learned and the ignorant, physicians statesmen, monarchs, a nation of enlightened freedom, have sanctioned, used, and extolled them. They are fixed facts in medical history!

Is not this better than hiding light under a bushel? Is it not better than writing preinto the boat with the women and shildren to take charge of her, as I did not consider Mr. Chambers capable of taking charge of so valuable a cargo of lives, the boat being so heavily laden, but Mr. Chambers flung himself into the boat by the Davit Ialls; the vessel was headed towards the land, and after I saw the ship Glimpse, which was then I believe under sail, the leak increased almost instantly; when I saw what was thought to be a pilot boat I was uncertain where I was; the vessel was headed for shore Point Reyes, about one hour before the passengers left; I kept away from the boat to save half pilotage; in my judgment it was better to head for the rocks rather than Drake's Bay, being about four miles nearer; it was about 4 a.m. when I saw the shore; the vessel was going about five to six knots an hour; the sails would only have been of use during the last hour, as before that there was a perfect calm; the reason why they were not sent was that the topmasts were housed and the yards on deck, as I expected to have strong head winds during the passage; this act I consider is what Is not this better than hiding light under a bushel? Is it not better than writing prescriptions in a dead language, and putting weights and quantities into hieroglyphics? If anything is worth knowing, it is worthy of being universally known. So thinking, Holloway proclaimed the virtues of his medicines through the press; and fortane, fame, and the gratitude of millions have been his reward.—Galveston News.

been his reward.— Galveston News.

Holloway's Pills.—No family should be without these pills.—Their long-tried efficiency in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all discase, a few doses will relieve the more urgent symptoms and thereafter completely control all discase, assimilate the food, improve the blood, and therefore similate the food, improve the blood, and therefore confer on the brain and every function healthful vigour, natural activity, and wholesome regularity. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Fills act as a charm. They expel rheumatism

HOLLOWAY'S PILLS

Nervous Disorders. Nervous Disorders.

Whatis more tearnil thus a treaking down of the nervous system? To be excitable or nervous in a small degree is meet distressing, tor where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abetain from them altogether; do not take confer—weak tea is preterable; get air the tresh air you can; take tree or four of the Filis every night; eat plenty of solids, and avoid the use of slops. If these golden rules are loowed, you will be happy in mind, strong in body, and lorget you have any terves.

Mothers and Daughters If there is one thing more than another (c) which beer Fills are so tanous, it is their purity it properties, especially their power of cleanage the bood from all impurities, and removing dangerous, enewing appended secretions. Universally adopted the one grand reme y to remain expensions the own properties as the one grand reme y to remain economization there is no ever fail never weaken the system, and always bring about what is required.

always bring about what is required,
Disorders of the Kidneys.

In all diseases affecting these organs, whether
hey secrete to much or too little water, or whether
hey be affected with stone or gravel, or with actes,
they be affected with stone or gravel, or with actes,
they be affected with stone or gravel, and
takeys, these little should be taken according to idneys, these l'ills should be taken according to be printed directions, and the dintment should be veil subbed into the small of the back at bed time treatment will give almost immediate refla-liter all other means have failed.

Stomach out of Order.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these I'llie; they remove all acadity, cocasioned either by intumperance or impropried. They reach the liver, and reduce it to a acathy action; they are wonderfully efficacious in cases of spasm—in fact they never fait in curing all floriders of the liver, and stomach. No diseases are more irequent, few more danger-ous, than affections of the respiratory organs. The sirst symptoms of disordered action may always to cemoved by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the hurried breating, and enable the winders at lungs to perform their functions with ease and regularity. These Pills, by their purifying powers cleanes the brood from all inpurities and thu-'Arily the systen against consumption, asthma, and other pulmonary compaints.

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental of hysicat, the effect of these tribs is in the highes the first of the end of the end of the end of the trive from the system the mortid cause of the cestablish the digestion, regulate all the secretions

Biliousness, Loss of Appetite, Headache, and Lowness of Spirits. These Pills effect a truly wonderful change in de-oilitated constitutions, as they create a healthy ap-netite, correct indigestion, remove excess of bile

Furneral's Fast Four-horse Stages. From 30 ellers can easily walk, or they can ride in Barnard's Fast Four-horse Stages. From Savana Ferry the Hudson Bay Co.'s new and den City, upper end of Shuswap Lake, a dis tance of 111 miles. From Ogden City to the Columbia River, a distance of 34 miles, there san excellent Government Pack Trail.

Miners Going to the Rich Mines of

BRIDGE RIVER

-OR-CARIBOO

can do so by the Government Wagon Read rom Yale, over which it is easy to walk, or ravellers can ride in fast Stages.

The Steamers running from San Francisco for the conveyance of passengers, by way of Victoria and the Fraser River, being under ontract to the British Colonial Governments, the Rates of Fare charged are very low, and passengers are expeditiously, comfortably and cheaply conveyed from Victoria to the mines.

Miners going from San Francisco to the British Columbia Gold Mines will derive another great advantage by visiting the FREE PORT OF VICTORIA. In Victoria, Miners can supply themselves with every article they require, free of duty, and 25 to 50 per cent cheaper than they can buy similar goods in California or Oregon.

Distance from Victoria, couver Island, to Big Bend, 473 Miles Distance from Astoria via Portland to Big Bend, 752 Miles

HOLLOWAY'S PILLS AND OINTMENT-Stomach tiolLoway's Pills and Ointment—Stonach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do hey regulate, the stomach, liver and kidneys, is recreated. Than any other paper, and is read by all classes regulate the stomach, liver and kidneys, is re-storing their healthy functions, and castin, out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary in fluence of the Pills.

Holloway's Ointment .- Wounds, Scalds Burns, and Irritating Sores.—The peculiarly mild soothing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all per-Ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and umosat vigilance. The sceratch, the burn, or the seald, treated early with this Ointment, assumes no anzy aspect, and never long ortues the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any ore, whatever its character. It conducts to health as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiratien which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady sphileation of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns. HOLLOWAY' OINTMENT AND PILLS .- Fistu

HOLLOWAY' OINTMENT AND PILLS.—Pistu las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the haman frame should arrest their progress at once, for its both insidious and rapid. Pistular, if long allowed to go on unchecked, not only weaken the nervous system, but destroy jife. The sooner these inestimable remedies are used the more certein is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In exceptions, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

emedy for diseases of the skin-Ringworm scurvy, scrofula, or king's evil, sore heads, and scurry, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiffjoints. These medicines operate mildly and surely. The cure effected by them is and temporary or apparent only, but complete and permanent.

RADWAY & CO., 87 Maiden Lane, New York.

olloway's Ointment and Pills,—The y medical chest that is furnished with these olloway's Ointmert and Pills.—The y medical chest that is furnished with these rful remedies needs nothing more. Indiges general dibility, liver complaint, eruptions, wounds, ulcers, tunours, &c., are infalured by their use. They purify the blooding of the continent, when well rubbed into the parts affected, enters the firsh just as salt enters meat, and if the Pills be taken as an auxiliary, use cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

and gentle in their action, and are as safe as they are efficacious.

Holloway's Pills and Ointment.—Influenza, Colds.—In discases of the throat and chest, a prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whateverthe condition of the patient, Holloway's medicines will restore, if recovery to possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually testoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system. Holloway's OINTMENT AND PILLS-These

HOLLOWAY'S OINTMINT AND PILLS—These potent remedies constitute a nateria medica in themselves, for there is no i ternal or external disorder cont. oilable by mec_ine for which the one or the other of them is not a positive remedy—eruptions, tum'rs, scroinla, scurvy, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results implication. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

the simplicity of Nature.

Holloway's Ointment and Pills—Acute Rheunatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the sootining action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nervex wessels, and guiders, it will arrest disease and parifying qualities of the Pills have the happies, effect in assisting the Ointment.

Holloway's Pills—General debility, low Holloway's Pills .- General debility, low

HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is = o common, so universal a complaint, that is a great blessing that such a remedy as this invaluable in dicine should have been discovered. No one need long suffer from indigestion with these Pills ar hand.
